Baja Chicken Enchilada

We've captured a taste of Mexico by combining chicken, black beans, bell peppers and exotic spices that will transport you south-of-the-border. (CODE# 621540)
Consider serving your soups in interesting or unexpected containers like bread bowls, ramekins, odd-shaped bowls, or wine and martini glasses. And don't forget to combo soups with your favorite menu items. Soup, when paired with another food, makes up 85.6% of all soup orders.
