

Deep Frying Oil

**A UNIQUE BLEND OF
SPECIALLY FORMULATED OILS**

**ZERO GRAMS TRANS FAT
PER SERVING**

The cheapest frying oil isn't always the least expensive. Some frying oils have a low case cost, but their short fry life means you must replace the oil frequently. This increases your annual oil cost significantly. In contrast, Mazola® ZT is subjected to our patented ultra-purification process, which was developed to remove impurities from the oil. The result is a light flavor, longer fry life and lower annual costs.
